Shape and sculpt your body with PermaShape!

Eliminate cellulite, excess fat and tighten your skin!

Despite regular exercise and the most stringent of diets, the body stores fat in certain areas.

PERMAShape offers a unique cellulite treatment with the latest laser technology.

Effective for both men and women and all skin types; PermaShape tightens and improves skin texture, reduces the appearance of

cellulite and targets localized fat deposits to eliminate them.

It is now possible to reshape the body and lose inches with scientifically proven results.

What results can you expect ?

A gradual diminishing of cellulite in the treated areas; you can also expect an improvement on the surface of the skin right from the first few treatments. In certain cases, we will notice a reduction of the

circumference of the treated areas.

Call Permalaser today for a free trial.

PermaShape is pain free, without surgery and is a non-invasive treatment with a quick recuperation time.

PERMALASER is open evenings and weekends. Call us today for a free consultation!

Hyaluronic Acid: Juvéderm, Perlane, Restylane

Facial rejuvenation by injection: *Which product to choose?*

Hyaluronic acid is compatible with the human body because it is a substance that is found in every single organic living thing. It is most present in the human body in fluids around the eye area and in the joints. So therefore, it is not too difficult to choose a product that will add

volume for lip and cheek augmentation, fill in crow's feet, the nasolabial folds that give us a tired look, remove fine lines and wrinkles including acne scars. Even more beneficial, Juvéderm, Perlane and Restylane *do not require an allergy test.*

When injected, it acts like an inflated cushion to support facial structures and tissues

that may have lost volume and elasticity due to aging and other causes. It is also hydrates the skin by bringing water to the surface which helps give it a refreshed and more youthful appearance.

To learn more about Hyaluronic acid, call us today to schedule a free consultation with our board certified plastic surgeon.

A Younger...Smoother...Glowing Skin!!

For those who desire a fresher skin, a peeling acts like a super-exfoliant to smooth out wrinkles and provide a smoother glowing skin !

The BEVERLY HILLS PEEL

Reputed to be the least aggressive of peels, the compounds of the BEVERLY HILLS PEEL is glycolic acid, derived from sugar cane and from other fruit acids and plants.

This treatment eliminates the dead skin cells and activates the production of collagen.

Softer, it also creates changes to the skin: a more glowing skin and we can also note changes in the depth of fine lines.

We recommend a series of the Beverly Hills Peel to obtain optimal results. The peels can also be combined with FotoFacial treatments.

Permalaser also offers other peel treatments.

To learn more about the Beverly Hills Peel and other treatments call us today at 514.731.1545
