PLUMPING UP THE VOLUME! Did you say Restylane?

Are you always on the hunt for a way to iron out the time lines etched in your face? Behold! Restylane, a popular "skin filler" temporarily fills in wrinkles.

Restylane smooths wrinkles and enhances lips instantly! If you would like to get rid of wrinkles and folds or if you want to improve the image of your lips, there is a new answer to your needs. Restylane is an innovation based on non-animal hyaluronic acid, manufactured by a unique method in the Q-Med Laboratories in Sweden. The treatment is performed by injecting Restylane into the skin or lip, and because no pretest is needed it takes less than 30 minutes. Hyaluronic acid occurs naturally in the body and therefore dissolves naturally with time.

Restylane is a long-lasting and crystal-clear gel for filling out lips, facial wrinkles and facial folds. Find out more! Free consultations with a Facial Plastic Surgeon is available at Permalaser! Why wait? Call today!

TRANSFORM YOUR SKIN! How? *With Perlane of course!*

Would you like to put your best foot forward with a fresher, more youthful face to the world, but without having to resort to surgery?

Perlane is a non-invasive anti-aging treatment that's proven to deliver results!

Imagine...in just 30 minutes Perlane can make the years disappear! This simple, procedure instantly softens ageing lines and improves your look by enhancing your natural features, such as your cheeks.

It restores volume, improves skin elasticity and smoothes lines and imperfections.

BOTOX...*Now Why Are You Frowning?*

Frown lines? *No not for me!* Facial expression lines develop from the action of the underlying muscles on the overlying skin. Although these lines help us to convey to others a range of emotional states, some facial expression lines always seem to connote fatigue or anger, even if those appearances do not represent how we are feeling. This is especially true of lines of the forehead and between the eyebrows. Other lines, such as crow's feet, may make us appear older than our chronological age. At Permalaser we use Botox® to non-surgically treat undesirable facial expression lines.

Botox® acts by producing muscle relaxation at treated sites. It does this by inhibiting contraction of the targeted muscles. Only those muscles producing these undesirable lines are treated. Frown lines between the eyebrows, crow's feet lines and forehead wrinkles are effectively treated with the Botox® method. Botox® also treats wrinkles around the mouth and neck. The treatment takes a few minutes and the Botox® takes effect in three to four days. Patients return to work or other activities immediately after treatment.

JUVÉDERM...*The secret to a youthful look!*

Juvéderm® is a smooth consistency gel made of hyaluronic acid—a naturally occurring substance in your skin that helps to add volume and hydration. Smile lines? Facial wrinkles (nasolabial—the creases that run from the bottom of your nose to the edge of your lips) and folds? Smooth them away! *Best of all results are immediate! So step into our office for a 15 minute treatment. Why wait? Call NOW!*

REJUVENATE YOURSELF! *Specialty Products for Men!*

Changing Skin Types

The skin changes, not only as we age, but also with the seasons and in response to the level of health you are experiencing at a given time. Natural events like aging, stress and illness can change the way your skin responds and your basic skin type. *It is good to become aware of your skin's health patterns and how it changes from season to season so you can re-evaluate your skin's needs and vary your skin care regime accordingly.*

Speciality Products For Men

Reduce those nicks and cuts by using our Vivier Skin Care Line for Men. Daily use leaves your skin with less cuts and abrasions. Rehydrate, nourish and sooth your skin after shaving for soft less irritated skin!

Looking for a complete system approach to your skin care? Have a look at our specially formulated, skin care line for men. In the summer we tend to wear less makeup and faults are visibly apparent. Let PERMALASER do the worrying for you. Summer is a great time to take care of your skin with the simplest step: a good skin care regimen. In 4 to 5 easy steps with our product lines, you will notice visible results! Why wait?
