"Permalaser is dedicated to enhancing our clients' sense of well-being"

DO YOU BELIEVE IN beautiful skin?..Oh You Will!

Look As Good As You Feel. At Permalaser, we understand the desire to look as good as you feel, and also understand pressures in today's fast-paced society for women and men to look as good as they possibly can. We know how confusing the effectiveness of lasers and various procedures can appear to you.

We are the leaders in the field of laser aesthetic technology. The advances in the effectiveness, safety, comfort and speed in laser technology in the past 10 years have been incredible. Our clinic possesses the world's finest FDA-approved technology for every procedure we perform. Our staff cares deeply about, and takes great pride in, providing dramatic improvement to your looks effectively, comfortably and without lifestyle interruption. We have unparalleled safety records and provided excellent results. For additional information call 514-731-1545 or go online to www.permalaser.com

PERMALASER Aims To Make Your Summer Hair Free!

Our Annual Spring Promotion offers you a discount *up to:*

50% on Laser Hair Removal Treatments!

Starts June 1st, 2009 for 4 weeks only!

Summer is just around the corner, so now is the perfect time to start removing that unwanted hair! *Permalaser can help you do just that!*

Tired of shaving, waxing, tweezing and applying messy creams? Getting rid of unwanted hair is a painful and often time consuming process that only provides temporary results, until now. Laser hair removal is a revolutionary laser procedure that can rid the body of unwanted hair faster. New breakthrough laser technology can get rid of unwanted hair, quickly and easily with positive results.

PERMALASER Aims To Make Your Summer Hair Free!

Unlike electrolysis, a slow process which destroys one hair follicle at a time, laser hair removal reaches and treats hundreds of hair follicles simultaneously. A laser produces a beam of highly concentrated light that is directed over the area being treated. The pigment located in hair follicles absorbs the light emitted by the Laser. The laser produces precisely controlled pulses of energy that are concentrated in the follicles under the skin. The energy pulse plus the absorption of light causes vaporization of the pigment and the disabling of the follicles in order to eliminate or significantly impede the hair's re-growth.

In addition to Laser Hair Removal, Permalaser also offers many other services including, spider vein treatment, Microdermabrasion, Botox®, Chemical Peels, FotoFacial RF and many more treatments!. No matter your concern, Permalaser has just what you're looking for. *Bikini weather is just around the corner so call today and find out what Permalaser can do for you!*

what we can do for you!*

DO YOU BELIEVE IN beautiful skin?.....Oh You Will!....cont. from page 1

FotoFacial RF™ are full face, neck, hands or body treatments using Intense Pulsed Light and Radio frequency energy combined in the same pulse. These gentle, no downtime treatments are used to improve the cosmetic appearance of the face, neck or body.

FotoFacial RF™ treatments are beneficial in the treatment of rosacea, flushing, redness, ruddy complexion, broken capillaries, spider veins of the face, sun spots, age spots, hyperpigmentation, melasma, cholasma, mask of pregnancy, freckles, wrinkles and skin laxity. The combination of Intense Pulsed Light and powerful RadioFrequency energy produces improvements of 50 to 70%.

There are many lasers and devices on the market that claim to deliver state-of-the-art Photorejuvenation and you will notice a degree of improvement. However, there is nothing on the market today that can compete with the FotoFacial RF™.

The combination of the Intense Pulsed Light and RadioFrequency provide the optimal degree of enhancement to all components of your skin.

Visit Permalaser today and let us help you be the best that you can be! An obligation free consultation is all it takes to let us assess what we can do for you!
