Come and discover the multitude of treatments offered by Permalaser, including our extraordinary rejuvenating antistress facial, as well as our fabulous skin treatments with Photorejuvenation. And to prepare for the upcoming summer season for those short dresses and swimsuits, our highly successful laser hair removal treatments to remove undesirable hairs with Montreal's best system, the Gentlelase.

Permalaser, for the last 10 years, has kept up with the latest innovative trends and always offers their clientele an extraordinary experience, as well as offering some of the best treatments and skin care products at reasonable prices. Our warm and caring technicians offer you a professional service and private consultations at no charge, nor obligation on your part which will give you the desire to come back and let yourself be pampered at Permalaser!

Laser Hair Removal

Our goal is to make those undesirable hairs disappear for the summer! One treatment, at regular monthly intervals is all that is required to have beautiful soft, hairless skin for the summer!

Do you suffer from ingrown hairs?

Do you have undesirable hairs around the bikini line, underarms, upper lip or even your lower legs?

Laser hair removal is just as effective for both men and women! Visit us today for safe and secure painless treatments!

Gentlelase has a special feature where the laser never touches your skin! The applicator includes a built-in contact cooling which ensures additional epidermal protection and comfort for the patient for pain free treatments!

what we can do for you!*

Laser Hair Removal ...continued from page 1.

We are the only clinic which does not require you to medicate yourself at every treatment or request that you purchase expensive numbing creams to apply 30 minutes before your actual treatment!

At Permalaser, you just need to present yourself for your scheduled pain free treatment! *Come and visit us today and try us out!*

Antistress Regenerating Facial

Permalaser's exclusive antistress regenerating facial is an ultra-performing facial, gentle and safe for most skin types. This facial instantly revives your skin giving it a distinctive glow and incredible softness. Remove this past winters' undesirable effects! Your skin deserves it!

Pass this information on to your friends....with every antistress regenerating facial treatment; receive a 15% rebate on the purchase of an exfoliating cream which can be used in the comfort of your home to maintain the results of your facial!

Photorejuvenation

After a hard winter, your skin may be suffering from dryness, redness, age spots, looseness, spider veins or even premature skin aging. Photorejuvenation treatments are a proven effective treatment against many of these conditions. After 3 to 5 treatments, you will notice an improvement in your skin tone, softness, less redness and aging. Photorejuvenation treatments are also beneficial for your hands, neck or even other areas! Each treatment takes approximately 1 hour on average and preferably twice per month to achieve desired results.

Permalaser is proud to offer **elōs™**, the first and only technology that uses combined energies to effectively and gently reduce the appearance of problem veins on the legs and face. **elōs™** is truly the next generation of safe and effective vein treatment technology. Powered by **elōs™** technology, Syneron skin rejuvenation system delivers.
